## Questions to answer

🔗 Write about your Learning Experience, highlighting your lessons learned and learning experience from working on this project.

I had a pretty good learning experience with this project and enjoyed working through its kinks.

🔗 What have you learned?

I learned that about an issue that can occur with Scanner and troubleshooted it.

🔗 What did you struggle with?

An issue with scanner where a newline character stayed in the buffer, skipping over the prompt asking to enter a movie title.

🔗 What would you do differently on your next project?

Nothing really. I think I did good on this one.

🔗 What parts of this assignment were you successful with, and what parts (if any) were you not successful with?

I was successful with all of it despite it taking a while.

🔗 Provide any additional resources/links/videos you used to while working on this assignment/project.

N/A
